EDUCATION

Cloud Generative AI
Governor Initiative Artificial Programme
2024-PRESENT

AI Technologies and Web Development
Ongoing innovative projects

Preston University
EMBA (General Management) — 2009

University of Karachi
MSc in Analytical Chemistry (2004)

SKILLS

Agent Maturity Model: Proficient in moving AI from "Chatbots" to "Proactive Partners" through Stage 1 (Incubation) and Stage 2 (Specialization).

Modern Web Stack: Expert in building interactive, responsive UI/UX with seamless AI integration.

Continuous Learning: Active practitioner in Generative AI, Distributed Application Runtimes (Dapr), and Cloud-Native AI evolution.

Strategic and highly analytical Full-Stack AI Developer with a unique academic foundation (EMBA & MSc in Analytical Chemistry). Expert in the fusion of AI with Web Development, specializing in building autonomous Digital FTEs (Full-Time Equivalents). Proven track record in architecting AI-native web applications that integrate high-level reasoning with robust cloud-native infrastructure. Dedicated to transforming complex business requirements into self-operating digital solutions.

WORK EXPERIENCE

Technical Core Competencies

2024 - PRESENT

- Agentic AI & LLMs: Specialist in building Autonomous FTEs, Multi-Channel Agent Orchestration, Prompt Engineering (Context Optimization), OpenAI Agent SDK, and Claude Code (Agentic Loops).
- Full-Stack Development: TypeScript, Next.js (App Router), FastAPI, Python, React, Tailwind CSS, Sanity CMS.
- Cloud-Native & DevOps: Kubernetes (Minikube), Docker Desktop, Kafka (Event-Driven Architecture), Helm Charts, Neon DB, Supabase.
- Analytical Management: Process Optimization, Operational Excellence, Data Analysis, Quality Control Protocols.

Key Technical Projects & Achievements

- Developed a 24/7 AI employee Autonomous Digital FTE Factory
- Personal AI Business Partner
- Cloud-Native AI System Architecture
- AI Book Generator & Agentic Docusaurus Hub
- Full-Stack E-Commerce Platform

Assistant Manager Quality Control

(Prime Safety Limited, Karachi | 2004 - 2010)

- Oversaw quality control processes to ensure compliance with industry standards and regulations
- Conducted analytical testing and data analysis to maintain product quality and safety.
- Collaborated with cross-functional teams to implement quality improvement initiatives.
